<p>Number of buildings: Auditors should count all buildings that are part of the facility, whether residents are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house inmates, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p>	
<p>Number of housing units: DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers),</p>	

<p>and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows residents to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>

PREA Audit Site Review

SUPERVISION PRACTICES

During the site review the auditor must compare the written staffing plan against the following observations to determine whether the staffing plan adequately assesses the staffing and/or electronic monitoring needs of the facility with sexual safety in mind, and, whether the facility is staffed according to the plan, as it is written, to later determine whether deviations from the plan have been documented:

- Observe the number of staff, contractors, and volunteers present (including security and non-security staff) and staffing patterns during every shift, including:
 - In the housing units
 - In isolated areas like administrative/disciplinary segregation and protective custody
 - In the programming, work, education, other areas
 - In areas where sexual abuse is known to be more likely to occur according to the staffing plan.
- Observe staff line of sight and assess whether there are blind spots.
- Observe areas where persons confined in the facility are not allowed to determine whether movement in and out of that space is monitored (e.g., by cameras or other forms of surveillance), to ensure that confined persons never enter those areas.
- Observe the level of supervision and frequency of cell checks in housing areas where confined persons are double-celled, in dormitories, or in holding pens with more than one person (if applicable).
- Observe indirect supervision practices, including camera placement.
 - In addition to observation of camera placement, inquire about and observe the monitoring room, including staffing rotation (i.e., how often is camera feed monitored and by whom).
- Note any staffing concerns, including understaffing, overcrowding, poor line of sight, etc.

Additionally, the auditor should:

- Have informal conversations with staff regarding supervision practices (e.g., staffing norms, understaffing, shortages, overcrowding, frequency of unannounced rounds).
- Have informal conversations with persons confined in the facility regarding the impact of supervision practices and staffing presence (e.g., safety, accessibility or limits to programming, education, work, overcrowding in housing units).

CROSS-GENDER SEARCHES

Note: the Standard use the term "cross-gender," but for the purposes of clarity in the site review instructions we use both "cross-gender" and "opposite-gender" when referring to viewing or searches of persons confined in the facility by staff of the opposite gender.

During the site review, the auditor must:

- Observe areas used to conduct strip searches, visual body cavity searches, and pat-down searches and assess whether opposite-gender staff (i.e., non-medical personnel) can watch the conduct of a strip search or visual body cavity search (absent exigent circumstances).
 - **If opposite-gender supervisors are required to supervise or observe strip searches**, observe the area used to conduct searches and note if a privacy screen or other similar device is used to obstruct cross-gender viewing.
 - **If opposite-gender staff or personnel can be in the vicinity of the strip search area**, observe the area used to conduct searches and note if a privacy screen or other similar device is used to obstruct cross-gender viewing or if the staff or personnel are kept at a sufficient distance where the contours of the breasts, genitalia, or buttocks are not readily distinguishable.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding search procedures (e.g., limits to cross-gender viewing, supervision of searches).

PREA Audit Site Review

CROSS-GENDER VIEWING

Note: the Standard use the term "cross-gender," but for the purposes of clarity in the site review instructions we use both "cross-gender" and "opposite-gender" when referring to viewing or searches of persons confined in the facility by staff of the opposite gender.

During the site review, the auditor must:

- Observe all areas where confined persons may be in a state of undress, such as showering, using the toilet, and/or changing their clothes.
 - All areas include:
 - Inside housing units.

- Outside of the housing units (e.g., medical areas, intake cells/showers/areas, transport holding areas, recreation areas).
- Observe if any nonmedical staff of the opposite gender are able to view confined persons in a state of undress, including from different angles and via mirror placement.
 - In multi-tier facilities, observe spaces from multiple perspectives and vantage points, including from the floor and any other tiers, as applicable.
 - If mirrors are present, observe the placement and angle of mirrors.
- Observe electronic surveillance monitoring areas such as control rooms or other spaces where staff monitor live or recorded video feeds of confined persons (e.g., via camera feed) and determine if:
 - Opposite-gender staff are assigned to monitor video surveillance (recorded or live) (e.g., male staff viewing female confined persons).
 - The video monitoring technology allows for point, tilt, zoom (PTZ) capabilities which could allow staff to see confined persons in a state of undress.
 - The facility uses any type of software (e.g., pixelation or blurring) or other mechanisms (e.g., post-its, tape) to obscure cross-gender viewing of confined persons in a state of undress.

Additionally, the auditor should:

- Have informal conversations with staff regarding cross-gender viewing, including staff responsible for monitoring camera feed/electronic monitoring (e.g., procedures to prevent cross-gender viewing via electronic monitoring, staff assigned to monitor camera feed, whether live or recorded, frequency of monitoring).
- Have informal conversations with persons confined in the facility regarding changing clothes, using the toilet, and showering without staff of the opposite gender being able to view.

Inside housing units, the auditor must also:

- Observe the method(s) used to alert individuals confined in the facility that an opposite-gender staff person has entered a housing unit/area where they are likely to be in a state of undress (i.e., cross-gender announcement).
 - Alert methods might include a verbal announcement, distinct buzzer, bell or other noise-making device.
 - **Important note:** It may not always be possible to observe a cross-gender announcement if, for example, there are staff of both genders working in the housing unit(s) or if the auditor is of the same gender as the staff and confined persons in the housing unit(s). In these circumstances, the auditor should rely upon other types of evidence (i.e. documentation, interviews of staff and persons confined in the facility).
- Assess whether the alert method(s) is sufficient to alert persons confined in the facility that an opposite-gender staff person will be entering the housing unit and allow them to cover-up and determine whether:
 - The alert is loud enough for all of the confined persons in the housing unit/

area to hear.

- The time between the alert and the staff person's arrival provides enough time for confined persons to cover up before the staff enter the area.
- The alert is provided in such a manner that confined persons with disabilities (e.g., persons who are Deaf or hard of hearing, Blind or have low vision, or those who are cognitively or functionally disabled (including intellectual, psychiatric, or speech disabilities)) are also properly alerted to staff of the opposite-gender in the housing unit.

Additionally, the auditor should:

- Have informal conversations with staff in housing units regarding knock and announce procedures (e.g., verify knock and announce procedures, frequency of knock and announce) and unannounced rounds conducted by supervisors.
- Have informal conversations with persons confined in the facility regarding knock and announce procedures.

115.16: Inmates with disabilities and inmates who are limited English proficient

115.16 (a): The agency shall take appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities) have an equal opportunity to participate in or benefit from all aspects of the agency’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. An agency is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans With Disabilities Act, 28 CFR 35.164.

PREA Audit Site Review

INTERPRETATION SERVICES

As part of the formal interview process, the auditor must interview persons confined in the facility who are LEP. As such, those interviews are an excellent opportunity to test the facility's access to interpretation services. The auditor should not notify or set-up interpreting or language line access in advance of the audit. Instead, the auditor must test the facility's process for securing an interpreter in real-time. Note, the auditor must access the interpretation services in whatever manner is available to the persons confined in the facility.

During the site review, the auditor must:

- Test the facility's process for securing interpretation services on-demand.
 - If services are provided via a language line, the auditor must test access to services via the language line to assess whether the phones for accessing the language line work properly (e.g., the auditor should pick up the phone to confirm there is a dial tone).
- Determine if persons confined in the facility must self-identify (e.g., enter pin, provide name/ID number) to access interpretation services. This is important to understand related to anonymous reporting or confidential access to emotional support services.
- Assess the availability of interpretation services (e.g., ability to access immediate interpretation services).
- Assess the accessibility of interpretation services (i.e., available to all persons confined in the facility who need an interpreter, including persons confined in restricted housing).
- Observe the location of interpretation services (e.g., are services provided in a location that provides some privacy for the persons confined in the facility?).

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding accessibility of interpretation services when needed (e.g., experiences with interpretation services in the past).

Documentation Review

- If applicable, documentation that taking actions would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens.

Auditor Overall Determination

- Exceeds Standard (Substantially exceeds requirement of standard)
 Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
 Does Not Meet Standard (requires corrective action)

Instructions for Overall Compliance Determination Narrative (this text will appear in your report)

The narrative below must include a comprehensive discussion of all the evidence relied upon in

making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

PREA Audit Site Review

INTAKE: PREA INFORMATION

As part of the site review, the auditor must ask to observe, during an actual intake process, if possible, the sexual safety information (PREA information/zero-tolerance information) provided at the point of intake or transfer; if no one is being admitted during the onsite audit, the auditor may ask staff to walk through the process and do a mock intake for demonstration purposes.

During the intake or mock demo, the auditor must:

- Confirm who is responsible for conducting the intake process.
 - This information will be important for interviewing the right staff who are responsible for the intake process.
- Test how the facility provides the necessary PREA information to all confined persons, regardless of ability and language, including whether:
 - Written information, if applicable, is clear and provided at an appropriate reading-level and is accessible for all persons confined in the facility, including those who are limited English proficient (LEP) (i.e., the facility provides written information in the languages most commonly spoken in the facility and/or provides translation services on-demand).
 - The facility provides interpreters, when needed, to assist Deaf and non-English speaking persons confined in the facility (see section Interpretation Services below).
 - Staff are prepared to read written information out loud, if applicable, to make accommodations for persons confined in the facility when necessary (e.g., Blind or have low vision, limited reading skills).
 - Mental health staff or other skilled educators/staff are involved in providing the required information to confined persons with cognitive or functional disabilities.

Additionally, the auditor should:

- Have informal conversations with staff (if mock demo) or persons confined in the facility (if an actual intake) regarding initial PREA education provided during intake (e.g., understanding of information provided, access to additional support to understand information provided, if necessary).

Note: Individuals who are “limited English proficient” (LEP) refers to those who do not speak English as their primary language and who have a limited ability to read, write, speak, or

understand English. These individuals may use spoken or sign language.

INTERPRETATION SERVICES

As part of the formal interview process, the auditor must interview persons confined in the facility who are LEP. As such, those interviews are an excellent opportunity to test the facility's access to interpretation services. The auditor should not notify or set-up interpreting or language line access in advance of the audit. Instead, the auditor must test the facility's process for securing an interpreter in real-time. Note, the auditor must access the interpretation services in whatever manner is available to the persons confined in the facility (see General Guidance section).

During the site review, the auditor must:

- Test the facility's process for securing interpretation services on-demand.
 - If services are provided via a language line, the auditor must test access to services via the language line to assess whether the phones for accessing the language line work properly (e.g., the auditor should pick up the phone to confirm there is a dial tone).
- Determine if persons confined in the facility must self-identify (e.g., enter pin, provide name/ID number) to access interpretation services. This is important to understand related to anonymous reporting or confidential access to emotional support services.
- Assess the availability of interpretation services (e.g., ability to access immediate interpretation services).
- Assess the accessibility of interpretation services (i.e., available to all persons confined in the facility who need an interpreter, including persons confined in restricted housing).
- Observe the location of interpretation services (e.g., are services provided in a location that provides some privacy for the persons confined in the facility?).

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding accessibility of interpretation services when needed (e.g., experiences with interpretation services in the past).

Documentation Review

- Intake records of inmates entering the facility in the last 12 months (spot check).
- Log or other record corroborating that those inmates received information at intake (e.g., inmate signatures).
- Any relevant education materials (e.g. inmate handbook) to ensure that relevant information is covered.

COMPREHENSIVE PREA EDUCATION

The auditor must ask to observe the actual comprehensive education process with a person confined in the facility, if possible; if no one confined in the facility is receiving the comprehensive education at the time of the onsite portion of the audit, the auditor may ask staff to walk through the process and do a mock education session for demonstration purposes.

During the site review, the auditor must:

- Determine whether comprehensive education is provided via video or in-person.
- Assess whether the education provided includes the required information as outlined

in the Standards (e.g., rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents).

- Assess how the facility makes the comprehensive education accessible to all persons confined in the facility (i.e., confined persons who are Deaf or hard-of-hearing, Blind or have low vision, cognitively or functionally disabled, limited English proficient, non-English speaking, and/or have limited reading skills).

Additionally, the auditor should:

- Have informal conversations with staff (if mock demo) or persons confined in the facility (if during comprehensive PREA education) regarding comprehensive PREA education (e.g., understanding of information provided, access to additional support to understand information provided, if necessary, frequency/availability of information being provided).

Documentation Review

- Intake records of inmates entering the facility in the past 12 months (spot check).
- Log or other record corroborating that those inmates received comprehensive PREA education within 30 days of intake (e.g., inmate signatures).
- Any relevant education materials (e.g. inmate handbook) to ensure that relevant information is covered.

Audit

PREA Audit Site Review

During the site review, the auditor must actively observe any posted or printed signage throughout the facility (e.g., posters, pamphlets, brochures, electronic signage). Signage includes audit notices, civil immigration information, how to report sexual abuse and sexual

harassment, access to outside victim emotional support services, and other relevant PREA information (see table below). The auditor must review the information provided on signage to determine whether it is readable and accessible, consistent, and placed throughout the facility to convey vital sexual safety information specific to the facility. Note: The expectations of what an auditor must observe regarding signage are outlined below; however, a thorough review of signage documentation for readability and accessibility, consistency, placement, and accuracy must also be conducted as part of the auditor's analysis of the evidence to make a compliance determination.

During the site review, the auditor must:

- Observe whether signage throughout the facility can be easily read/accessed by persons in the facility, specifically:
 - Signage language is clear and easy to understand.
 - Signage specific to services, such as emotional support services, civil immigration, and external reporting, should include language that clearly details what services are available and for what purposes.
 - Signage is provided in English and translated for the other languages most commonly spoken in the facility.
 - The signage text size, formatting, and physical placement accommodates most readers, including those of average height, low vision/visually impaired, or those physically disabled/in a wheelchair, etc.
 - The information provided by the signage is not obscured, unreadable by graffiti, or missing due to damage (e.g., part of the signage is ripped off that included the sexual abuse reporting hotline, a person drew a picture over the words which makes them illegible).
- Observe whether the information on the signage is accurate and consistent throughout the facility (e.g., audit notices are relevant to the current audit; contact information is consistent for service provider/organization name(s), addresses, phone number(s)).
- Observe where signage is placed in the facility to assess whether the signage is accessible to staff and/or those confined in the facility and other persons who may need the information or services provided. The auditor must observe the placement of the following types of signage:
 - **Other PREA signage**
 - Posted in areas where staff and persons confined in the facility are able to read and retain the information being provided (e.g., staff dining area, staff break room, locker rooms, medical and mental health staff areas, housing units).
 - **For example, is key PREA information continuously and readily available and observed throughout the facility (e.g., posters, handbooks, brochures, or other written formats)?**

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding signage throughout the facility (e.g., readability and accessibility of information,

including for confined persons with disabilities; consistency and accuracy of information; signage posted just for the audit or always posted (with the exception of the PREA Audit Notice).

PREA Audit Site Review

PREA RISK SCREENING

During the site review, the auditor must ask to observe a confined person being screened for risk of being sexually abused or sexually abusive, if possible; if no confined persons are being screened during the onsite portion of the audit, the auditor may ask staff to walk through the process and do a mock intake for demonstration purposes.

During the PREA risk screening or mock demo, the auditor must:

- Confirm who is responsible for risk screening (e.g., medical, mental health, risk screening staff).
 - This information will be important for interviewing the right staff who are

responsible for conducting risk screening.

- Assess whether the screening process occurs in a setting that ensures as much privacy as possible given the potentially sensitive information that could be discussed (e.g., screening takes place out of earshot of other staff and confined persons who would not otherwise participate in the screening process).
- Assess whether screening staff ask screening questions in a manner that fosters comfort and elicits responses.
- Test the method for assessing confined persons for risk of being sexually abused by other persons confined in the facility or sexually abusive toward other persons confined in the facility, including whether:
 - Screening staff use an instrument to collect information during the risk screening process.
 - Screening staff affirmatively ask persons confined in the facility about their sexual orientation and gender identity by directly inquiring if they identify as LGBTI (in addition to making a subjective determination about perceived status).
 - Screening staff use additional sources of information, outlined in the Standards, to complete the initial risk screening assessment.
 - Completion of the risk screening instrument returns a subsequent “score” or determination of risk of being sexually abused or being sexually abusive.

Additionally, the auditor should:

- Have informal conversations with staff while conducting risk screening (or mock demo) regarding the risk screening process (e.g., how information is collected/ specifics of the screening tool, how privacy is maintained).
- Have informal conversations with persons confined in the facility regarding the risk screening process (e.g., their comfort answering questions in the space where the screening is being conducted, ability to answer the questions asked).

Audit

Interview Guides

- Random Sample of Staff - Q: 7
- Inmate Interview Questionnaire - Q: 9

PREA Audit Site Review

SIGNAGE

During the site review, the auditor must actively observe any posted or printed signage throughout the facility (e.g., posters, pamphlets, brochures, electronic signage). Signage includes audit notices, civil immigration information, how to report sexual abuse and sexual harassment, access to outside victim emotional support services, and other relevant PREA information (see table below). The auditor must review the information provided on signage to determine whether it is readable and accessible, consistent, and placed throughout the facility to convey vital sexual safety information specific to the facility. Note: The expectations of what an auditor must observe regarding signage are outlined below; however, a thorough review of signage documentation for readability and accessibility, consistency, placement, and accuracy must also be conducted as part of the auditor's

analysis of the evidence to make a compliance determination.

During the site review, the auditor must:

- Observe whether signage throughout the facility can be easily read/accessed by persons in the facility, specifically:
 - Signage language is clear and easy to understand.
 - Signage specific to services, such as emotional support services, civil immigration, and external reporting, should include language that clearly details what services are available and for what purposes.
 - Signage is provided in English and translated for the other languages most commonly spoken in the facility.
 - The signage text size, formatting, and physical placement accommodates most readers, including those of average height, low vision/visually impaired, or those physically disabled/in a wheelchair, etc.
 - The information provided by the signage is not obscured, unreadable by graffiti, or missing due to damage (e.g., part of the signage is ripped off that included the sexual abuse reporting hotline, a person drew a picture over the words which makes them illegible).
- Observe whether the information on the signage is accurate and consistent throughout the facility (e.g., audit notices are relevant to the current audit; contact information is consistent for service provider/organization name(s), addresses, phone number(s)).
- Observe where signage is placed in the facility to assess whether the signage is accessible to staff and/or those confined in the facility and other persons who may need the information or services provided. The auditor must observe the placement of the following types of signage:
 - **How to report sexual abuse and/or sexual harassment (external and internal reporting methods)**
 - Posted in any areas frequented by persons confined in the facility, including housing/living units, programming areas, work areas, education areas, etc.
 - Recommended: It is often helpful for such signage to be located near the phone(s), so persons confined in the facility can easily access the phone number if needed.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding signage throughout the facility (e.g., readability and accessibility of information, including for confined persons with disabilities; consistency and accuracy of information; signage posted just for the audit or always posted (with the exception of the PREA Audit Notice)).

TESTING INTERNAL REPORTING METHODS FOR CONFINED PERSONS

Note: Facilities are required to have multiple internal methods for confined persons to privately report sexual abuse or sexual harassment, retaliation by other persons confined in the facility or staff for reporting sexual abuse and sexual harassment, and staff neglect or

violation of responsibilities that may have contributed to such incidents. Accordingly, during the site review, auditors must test the methods provided for the purpose of assessing whether persons confined in the facility have regular and timely access to reporting methods and how the facility receives these reports.

Reporting in Writing

If internal reporting includes a mechanism or mechanisms for submitting a written report (which might be a note or a form, and usually includes grievance forms) into a drop box or other receptacle, auditors are not expected to complete and submit a written report via hard copy/drop box. However, the auditor must assess access to writing materials (e.g., forms, paper, envelopes, writing implements) and the drop box in the same way as that available to persons confined in the facility.

During the site review the auditor must:

- Test access, or ask a person confined in the facility to test access, to the mechanism(s)/form(s).
 - Determine whether persons confined in the facility do not have to request forms from staff.
 - See section “Processes for Sending and Receiving Mail (Mail Drop boxes/ Mailroom)” below for instructions on what the auditor must observe during the site review regarding access to writing materials (e.g., writing implements, forms, paper, envelopes), drop boxes, etc. and security of written communications.

Reporting Electronically

If the facility has a system by which persons confined in the facility can report sexual abuse and/or sexual harassment electronically via kiosk, tablet, or computer (whether by internal email, grievance, or some other method), **during the site review the auditor must:**

- Complete and submit a test report via the kiosk/tablet/computer during the site review, and in the same manner as that available to persons confined in the facility.
- Assess whether the facility receives the test report.
 - Ask to see evidence of having received the test report that the auditor submitted.
- Test accessibility of kiosks/tablets/computers, including whether:
 - Kiosks/tablets/computers are easily and readily available to all persons confined in the facility and are placed in areas frequented by confined persons.
 - Kiosks/tablets/computers are accessible to all persons confined in the facility and have reasonable accommodations, where necessary (i.e., for confined persons who are Deaf or hard-of-hearing, Blind or have low vision, cognitively or functionally disabled, limited English proficient, non-English speaking, and/ or have limited reading skills).
 - Kiosks/tablets/computers are accessible to persons confined in restricted housing, where possible.
 - If it is not possible to make a kiosk/tablet/computer available to persons confined in restricted housing, the auditor must determine

whether an alternative method (or methods) is available that is accessible and allows the confined persons to remain anonymous upon request.

- Kiosks/tablets/computers are placed in areas that afford persons confined in the facility reasonable privacy while submitting a report.
- Kiosks/tablets/computers are operable (i.e., in working order).
- Assess whether kiosks/tablets/computers require persons confined in the facility to provide their name and/or ID in order to complete and submit a sexual abuse or sexual harassment report (i.e., allows the report to be submitted anonymously). This means that there must be a way for confined persons to access the reporting mechanism without logging into the kiosk/tablet/computer with a traceable login.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding internal reporting electronically (e.g., access to kiosks/tablets/computers, including access for persons confined in restricted housing, reasonable accommodations for persons confined in the facility who need it, operability of kiosks/tablets/computers, anonymity in reporting).

Reporting Verbally

For verbal reports of sexual abuse and/or sexual harassment made by persons confined in the facility, during the site review the auditor should:

- Have informal conversations with persons confined in the facility, to determine whether they are aware that they are allowed to report verbally and that they can report not only to an officer in their housing unit, but to other staff in the facility (i.e., medical and mental health staff, a counselor, etc.).
- Have informal conversations with staff, to determine whether staff are aware of the process for receiving and documenting verbal reports.
- See section “Record Storage” below for instructions on what the auditor must observe during the site review regarding how documented reports are stored and who has access to those documented reports.

PROCESSES FOR SENDING AND RECEIVING MAIL (MAIL DROP BOXES/MAILROOM)

During the site review, the auditor must:

- Assess the accessibility of writing instruments for persons confined in the facility (e.g., paper, writing instruments, sexual abuse and sexual harassment reporting form(s), if applicable, envelopes, stamps).
 - This includes accessibility for persons confined in restricted housing (e.g., ad seg, isolation).
- Observe how mail moves from confined persons to the mailroom.
 - If mail moves via mail drop boxes/receptacles/lock boxes:
 - Assess whether placement of mail drop boxes/receptacles are located in areas accessible to all persons confined in the facility.

- Ideally, mail drop boxes/receptacles should also be in locations where a person confined in the facility could drop written communication anonymously (e.g., an area where a confined person could drop a form, letter, or note in passing).
 - This includes accessibility to mail drop boxes/receptacles/lock boxes for persons confined in restricted housing.
 - **Note:** Drop boxes or other receptacles used to collect reports of sexual abuse and sexual harassment should not be used exclusively for reporting sexual abuse and sexual harassment. Other staff and confined persons should not know, from the nature of the receptacle being used, that a confined person is reporting a sexual abuse or sexual harassment.
 - If mail moves via staff (i.e., other than mailroom staff), see “have informal conversations” below.
- Assess the security of written communication
 - Mail drop boxes/receptacles/lock boxes are kept locked/secured.
 - Mail in the mail drop boxes/receptacles/lock boxes is only accessible by a designated agency or facility official(s).

Additionally, the auditor should:

- Have informal conversations with staff responsible for sending and receiving mail (e.g., mailroom staff and/or other staff) and persons confined in the facility regarding the process of sending and receiving mail to/from the external reporting entity, outside emotional support services, legal mail (e.g., the extent to which mail correspondence is kept private, confidential, and/or privileged (as allowed by Federal, State, and local laws), perception of privacy/confidentiality/anonymity in sending and receiving mail, and accessibility of writing instruments and required forms, including for persons confined in restricted housing).

RECORD STORAGE

During the site review, the auditor must:

- Observe the physical storage area of any information/documentation collected and maintained in hard copy pursuant to the PREA Standards (e.g., risk screening information, medical records, sexual abuse allegations) to determine if the area is secured (e.g., key card, lock and key).
- Observe electronic safeguards of any information/documentation collected and maintained electronically pursuant to the PREA Standards (e.g., risk screening information) to determine how access to the information is secured (e.g., password protected, accessible only in certain areas, role-based security).
- Note, the auditor may have to speak with the agency/facility information technology staff person to understand the secure storage of electronic information and who has access to that information.

Additionally, the auditor should:

- Have informal conversations with staff regarding access to secure information, including medical and mental health files, sexual abuse and sexual harassment reports, etc. (e.g., where, how, and security of information is stored electronically and in hard copy, specifically who has access and how access is restricted).

PREA Audit Site Review

SIGNAGE

During the site review, the auditor must actively observe any posted or printed signage throughout the facility (e.g., posters, pamphlets, brochures, electronic signage). Signage includes audit notices, civil immigration information, how to report sexual abuse and sexual harassment, access to outside victim emotional support services, and other relevant PREA information (see table below). The auditor must review the information provided on signage to determine whether it is readable and accessible, consistent, and placed throughout the facility to convey vital sexual safety information specific to the facility. Note: The expectations of what an auditor must observe regarding signage are outlined below; however, a thorough review of signage documentation for readability and accessibility, consistency, placement, and accuracy must also be conducted as part of the auditor's analysis of the evidence to make a compliance determination.

During the site review, the auditor must:

- Observe whether signage throughout the facility can be easily read/accessed by persons in the facility, specifically:
 - Signage language is clear and easy to understand.
 - Signage specific to services, such as emotional support services, civil immigration, and external reporting, should include language that clearly details what services are available and for what purposes.
 - Signage is provided in English and translated for the other languages most commonly spoken in the facility.
 - The signage text size, formatting, and physical placement accommodates most readers, including those of average height, low vision/visually impaired, or those physically disabled/in a wheelchair, etc.
 - The information provided by the signage is not obscured, unreadable by graffiti, or missing due to damage (e.g., part of the signage is ripped off that included the sexual abuse reporting hotline, a person drew a picture over the words which makes them illegible).
- Observe whether the information on the signage is accurate and consistent throughout the facility (e.g., audit notices are relevant to the current audit; contact information is consistent for service provider/organization name(s), addresses, phone number(s)).
- Observe where signage is placed in the facility to assess whether the signage is accessible to staff and/or those confined in the facility and other persons who may need the information or services provided. The auditor must observe the placement of the following types of signage:
 - **How to report sexual abuse and/or sexual harassment (external and internal reporting methods)**
 - Posted in any areas frequented by persons confined in the facility, including housing/living units, programming areas, work areas, education areas, etc.
 - Recommended: It is often helpful for such signage to be located near the phone(s), so persons confined in the facility can easily access the phone number if needed.
 - **Civil immigration**
 - Posted in all areas frequented by persons confined in the facility,

including housing/living units, programming areas, work areas, education areas, etc.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding signage throughout the facility (e.g., readability and accessibility of information, including for confined persons with disabilities; consistency and accuracy of information; signage posted just for the audit or always posted (with the exception of the PREA Audit Notice).

TESTING EXTERNAL REPORTING METHOD(S) FOR CONFINED PERSONS

During the site review, the auditor must test access to the external reporting entity or ask a person confined in the facility to test access to the external reporting entity.

Reporting via Phone

If access to the external reporting entity is provided by phone, during the site review the auditor must:

- Test reporting via phones by calling the external reporting entity in the same manner that a person confined in the facility would be expected to call the external reporting entity (or have a confined person call the service provider), to assess whether:
 - The phones work (e.g., have a dial tone, can call outside the facility).
 - The phone number listed on the signage actually connects with the outside reporting entity.
 - Access to the outside reporting entity does not require a confined person to provide their pin or name (allowing the person to remain anonymous).
 - The phone number is local/toll-free.
 - The phone is answered by a live person or information about how and when to reach a live person is provided (versus a recording with no access to a live person).
 - The reporting entity is prepared to receive reports of sexual abuse and sexual harassment from persons confined in the facility and immediately forward reports to agency officials.
 - This requires a brief conversation with the person who answers the phone on behalf of the external reporting entity regarding responsibilities in regard to reporting. The auditor must ask the person to forward a test report to the agency under the auditor's name.
 - The reporting entity allows persons confined in the facility to report anonymously upon request.
 - As above, this requires a brief conversation with the person who answers the phone on behalf of the external reporting entity regarding anonymity, if requested.
- Assess whether all persons confined in the facility have regular access to phones to report sexual abuse and sexual harassment to the external reporting entity, including persons confined in restricted housing, and have reasonable accommodations, where

necessary (i.e., for confined persons who are Deaf or hard-of-hearing, Blind or have low vision, cognitively or functionally disabled, limited English proficient, non-English speaking, and/or have limited reading skills).

- Assess how the facility allows confined persons to report sexual abuse or sexual harassment anonymously, if requested:
 - Facilities should allow persons confined in the facility access to telephones that are unmonitored or that may provide more privacy (e.g., in a medical or mental health unit).
 - The configuration of the telephone should not make obvious that any confined person using the telephone system is making an allegation of sexual abuse or sexual harassment. For example, if the hotline is a dedicated phone, then the phone should also be used for other purposes besides reporting sexual abuse or sexual harassment.
 - Facilities should have reporting mechanisms in place that allow the identity of the confined person making the report to remain anonymous to facility staff and administrators.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding external reporting via the phone (e.g., access to phones, including access for persons confined in restricted housing, reasonable accommodations for persons confined in the facility who need it, anonymity in reporting).

Reporting in Writing

Note: Auditors are not expected to test access to external reporting entities via mail. See section “Processes for Sending and Receiving Mail (Mail Drop boxes/Mailroom)” below for instructions on what the auditor must observe during the site review regarding sending and receiving mail, including to external reporting entities.

PROCESSES FOR SENDING AND RECEIVING MAIL (MAIL DROP BOXES/MAILROOM)

During the site review, the auditor must:

- Assess the accessibility of writing instruments for persons confined in the facility (e.g., paper, writing instruments, sexual abuse and sexual harassment reporting form(s), if applicable, envelopes, stamps).
 - This includes accessibility for persons confined in restricted housing (e.g., ad seg, isolation).
- Observe how mail moves from confined persons to the mailroom.
 - If mail moves via mail drop boxes/receptacles/lock boxes:
 - Assess whether placement of mail drop boxes/receptacles are located in areas accessible to all persons confined in the facility.
 - Ideally, mail drop boxes/receptacles should also be in locations where a person confined in the facility could drop written communication anonymously (e.g., an area where a confined person could drop a form, letter, or note in passing).
 - This includes accessibility to mail drop boxes/receptacles/lock

boxes for persons confined in restricted housing.

- **Note:** Drop boxes or other receptacles used to collect reports of sexual abuse and sexual harassment should not be used exclusively for reporting sexual abuse and sexual harassment. Other staff and confined persons should not know, from the nature of the receptacle being used, that a confined person is reporting a sexual abuse or sexual harassment.
- If mail moves via staff (i.e., other than mailroom staff), see “have informal conversations” below.
- Assess the security of written communication
 - Mail drop boxes/receptacles/lock boxes are kept locked/secured.
 - Mail in the mail drop boxes/receptacles/lock boxes is only accessible by a designated agency or facility official(s).

Additionally, the auditor should:

- Have informal conversations with staff responsible for sending and receiving mail (e.g., mailroom staff and/or other staff) and persons confined in the facility regarding the process of sending and receiving mail to/from the external reporting entity, outside emotional support services, legal mail (e.g., the extent to which mail correspondence is kept private, confidential, and/or privileged (as allowed by Federal, State, and local laws), perception of privacy/confidentiality/anonymity in sending and receiving mail, and accessibility of writing instruments and required forms, including for persons confined in restricted housing).

Audit

PREA Audit Site Review

SIGNAGE

During the site review, the auditor must actively observe any posted or printed signage throughout the facility (e.g., posters, pamphlets, brochures, electronic signage). Signage includes audit notices, civil immigration information, how to report sexual abuse and sexual

harassment, access to outside victim emotional support services, and other relevant PREA information (see table below). The auditor must review the information provided on signage to determine whether it is readable and accessible, consistent, and placed throughout the facility to convey vital sexual safety information specific to the facility. Note: The expectations of what an auditor must observe regarding signage are outlined below; however, a thorough review of signage documentation for readability and accessibility, consistency, placement, and accuracy must also be conducted as part of the auditor's analysis of the evidence to make a compliance determination.

During the site review, the auditor must:

- Observe whether signage throughout the facility can be easily read/accessed by persons in the facility, specifically:
 - Signage language is clear and easy to understand.
 - Signage specific to services, such as emotional support services, civil immigration, and external reporting, should include language that clearly details what services are available and for what purposes.
 - Signage is provided in English and translated for the other languages most commonly spoken in the facility.
 - The signage text size, formatting, and physical placement accommodates most readers, including those of average height, low vision/visually impaired, or those physically disabled/in a wheelchair, etc.
 - The information provided by the signage is not obscured, unreadable by graffiti, or missing due to damage (e.g., part of the signage is ripped off that included the sexual abuse reporting hotline, a person drew a picture over the words which makes them illegible).
- Observe whether the information on the signage is accurate and consistent throughout the facility (e.g., audit notices are relevant to the current audit; contact information is consistent for service provider/organization name(s), addresses, phone number(s)).
- Observe where signage is placed in the facility to assess whether the signage is accessible to staff and/or those confined in the facility and other persons who may need the information or services provided. The auditor must observe the placement of the following types of signage:
 - **Third-party reporting**
 - Posted in public areas of the facility that can be accessed by family members, friends, advocates, and attorneys (e.g., family visitation areas, attorney visiting areas, public-facing websites) as well as any areas frequented by persons confined in the facility.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding signage throughout the facility (e.g., readability and accessibility of information, including for confined persons with disabilities; consistency and accuracy of information; signage posted just for the audit or always posted (with the exception of the PREA Audit Notice)).

TESTING THIRD-PARTY REPORTING

Either prior to the onsite, during the site review, or post-onsite, the auditor must:

- Complete and submit a test third-party report using the same method(s) provided to the public (e.g., via the agency/facility website).
 - Confirm the method(s) to submit third-party reports is easily accessible and understandable and can be found in reasonably conspicuous and appropriate locations (e.g., facility/agency website).
 - Confirm that the third-party reporting method is not the general contact information for the facility, but is specific to reporting sexual abuse and sexual harassment in the facility.
- Verify the facility has a process for receiving third-party reports.
 - Ask to see evidence of having received the test report that the auditor submitted.

Documentation Review

- Documentation of third-party reports and declination of third-party assistance.

PREA Audit Site Review

SIGNAGE

During the site review, the auditor must actively observe any posted or printed signage throughout the facility (e.g., posters, pamphlets, brochures, electronic signage). Signage includes audit notices, civil immigration information, how to report sexual abuse and sexual harassment, access to outside victim emotional support services, and other relevant PREA information (see table below). The auditor must review the information provided on signage to determine whether it is readable and accessible, consistent, and placed throughout the facility to convey vital sexual safety information specific to the facility. Note: The expectations of what an auditor must observe regarding signage are outlined below; however, a thorough review of signage documentation for readability and accessibility, consistency, placement, and accuracy must also be conducted as part of the auditor’s

analysis of the evidence to make a compliance determination.

During the site review, the auditor must:

- Observe whether signage throughout the facility can be easily read/accessed by persons in the facility, specifically:
 - Signage language is clear and easy to understand.
 - Signage specific to services, such as emotional support services, civil immigration, and external reporting, should include language that clearly details what services are available and for what purposes.
 - Signage is provided in English and translated for the other languages most commonly spoken in the facility.
 - The signage text size, formatting, and physical placement accommodates most readers, including those of average height, low vision/visually impaired, or those physically disabled/in a wheelchair, etc.
 - The information provided by the signage is not obscured, unreadable by graffiti, or missing due to damage (e.g., part of the signage is ripped off that included the sexual abuse reporting hotline, a person drew a picture over the words which makes them illegible).
- Observe whether the information on the signage is accurate and consistent throughout the facility (e.g., audit notices are relevant to the current audit; contact information is consistent for service provider/organization name(s), addresses, phone number(s)).
- Observe where signage is placed in the facility to assess whether the signage is accessible to staff and/or those confined in the facility and other persons who may need the information or services provided. The auditor must observe the placement of the following types of signage:
 - **Access to outside confidential (emotional) support services**
 - Posted in all areas frequented by persons confined in the facility, including housing/living units, programming areas, work areas, education areas, etc.
 - Recommended: It is often helpful for such signage to be located near the phone(s), so persons confined in the facility can easily access the phone number if needed.
 - **Civil Immigration**
 - Posted in all areas frequented by persons confined in the facility, including housing/living units, programming areas, work areas, education area, etc.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding signage throughout the facility (e.g., readability and accessibility of information, including for confined persons with disabilities; consistency and accuracy of information; signage posted just for the audit or always posted (with the exception of the PREA Audit Notice)).

TESTING ACCESS TO OUTSIDE EMOTIONAL SUPPORT SERVICES

During the site review, the auditor must test access to outside emotional support services or ask a person confined in the facility to test access to outside emotional support services.

Outside Emotional Support via Phone

If access to support services is provided by phone, **during the site review the auditor must:**

- Test access via phones by calling the outside emotional support service provider(s) in the same manner that a person confined in the facility would be expected to call (or have a confined person call the service provider(s)), to assess whether:
 - The phones work (e.g., have a dial tone, can call outside the facility).
 - The phone number listed on the signage actually connects with the organization providing outside emotional support services.
 - The phone number is local/toll-free.
 - The phone is answered by a service provider (i.e., a live person or information about how and when to reach a live person is provided versus a recording with no access to a live person).
 - The service provider is prepared to offer services to callers from the facility.
 - This requires a brief conversation with the person who answers the phone at the service provider regarding the services offered to persons confined in the facility.
- Assess whether all persons confined in the facility have regular access to phones to contact the outside emotional support service provider(s), including for persons confined in restricted housing, and have reasonable accommodations, where necessary (i.e., for confined persons who are Deaf or hard-of-hearing, Blind or have low vision, cognitively or functionally disabled, limited English proficient, non-English speaking, and/or have limited reading skills).
- Assess how the facility provides access to phones that are unmonitored or allow for privacy (e.g., medical or mental health unit) or otherwise provides a way for persons confined in the facility to correspond with outside emotional support services confidentially.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding access to outside emotional support services via the phone (e.g., access to phones, including access for persons confined in restricted housing, reasonable accommodations for persons confined in the facility who need it, limits to confidentiality).

Outside Emotional Support via Mail

Note: Auditors are not expected to test access to external reporting entities via mail. See section "Processes for Sending and Receiving Mail (Mail Drop boxes/Mailroom)" below for instructions on what the auditor must observe during the site review regarding sending and receiving mail, including to outside emotional support services.

PROCESSES FOR SENDING AND RECEIVING MAIL (MAIL DROP BOXES/MAILROOM)

During the site review, the auditor must:

- Assess the accessibility of writing instruments for persons confined in the facility (e.g., paper, writing instruments, sexual abuse and sexual harassment reporting form(s), if applicable, envelopes, stamps).
 - This includes accessibility for persons confined in restricted housing (e.g., ad seg, isolation).
- Observe how mail moves from confined persons to the mailroom.
 - If mail moves via mail drop boxes/receptacles/lock boxes:
 - Assess whether placement of mail drop boxes/receptacles are located in areas accessible to all persons confined in the facility.
 - Ideally, mail drop boxes/receptacles should also be in locations where a person confined in the facility could drop written communication anonymously (e.g., an area where a confined person could drop a form, letter, or note in passing.)
 - This includes accessibility to mail drop boxes/receptacles/lock boxes for persons confined in restricted housing.
 - **Note:** Drop boxes or other receptacles used to collect reports of sexual abuse and sexual harassment should not be used exclusively for reporting sexual abuse and sexual harassment. Other staff and confined persons should not know, from the nature of the receptacle being used, that a confined person is reporting a sexual abuse or sexual harassment.
 - If mail moves via staff (i.e., other than mailroom staff), see “have informal conversations” below.
- Assess the security of written communication
 - Mail drop boxes/receptacles/lock boxes are kept locked/secured.
 - Mail in the mail drop boxes/receptacles/lock boxes is only accessible by a designated agency or facility official(s).

Additionally, the auditor should:

- Have informal conversations with staff responsible for sending and receiving mail (e.g., mailroom staff and/or other staff) and persons confined in the facility regarding the process of sending and receiving mail to/from the external reporting entity, outside emotional support services, legal mail (e.g., the extent to which mail correspondence is kept private, confidential, and/or privileged (as allowed by Federal, State, and local laws), perception of privacy/confidentiality/anonymity in sending and receiving mail, and accessibility of writing instruments and required forms, including for persons confined in restricted housing).

Audit

PREA Audit Site Review

SIGNAGE

During the site review, the auditor must actively observe any posted or printed signage throughout the facility (e.g., posters, pamphlets, brochures, electronic signage). Signage includes audit notices, civil immigration information, how to report sexual abuse and sexual harassment, access to outside victim emotional support services, and other relevant PREA information (see table below). The auditor must review the information provided on signage to determine whether it is readable and accessible, consistent, and placed throughout the facility to convey vital sexual safety information specific to the facility. Note: The expectations of what an auditor must observe regarding signage are outlined below;

however, a thorough review of signage documentation for readability and accessibility, consistency, placement, and accuracy must also be conducted as part of the auditor's analysis of the evidence to make a compliance determination.

During the site review, the auditor must:

- Observe whether signage throughout the facility can be easily read/accessed by persons in the facility, specifically:
 - Signage language is clear and easy to understand.
 - Signage specific to services, such as emotional support services, civil immigration, and external reporting, should include language that clearly details what services are available and for what purposes.
 - Signage is provided in English and translated for the other languages most commonly spoken in the facility.
 - The signage text size, formatting, and physical placement accommodates most readers, including those of average height, low vision/visually impaired, or those physically disabled/in a wheelchair, etc.
 - The information provided by the signage is not obscured, unreadable by graffiti, or missing due to damage (e.g., part of the signage is ripped off that included the sexual abuse reporting hotline, a person drew a picture over the words which makes them illegible).
- Observe whether the information on the signage is accurate and consistent throughout the facility (e.g., audit notices are relevant to the current audit; contact information is consistent for service provider/organization name(s), addresses, phone number(s)).
- Observe where signage is placed in the facility to assess whether the signage is accessible to staff and/or those confined in the facility and other persons who may need the information or services provided. The auditor must observe the placement of the following types of signage:
 - **Third-party reporting**
 - Posted in public areas of the facility that can be accessed by family members, friends, advocates, and attorneys (e.g., family visitation areas, attorney visiting areas, public-facing websites) as well as any areas frequented by persons confined in the facility.

Additionally, the auditor should:

- Have informal conversations with staff and persons confined in the facility regarding signage throughout the facility (e.g., readability and accessibility of information, including for confined persons with disabilities; consistency and accuracy of information; signage posted just for the audit or always posted (with the exception of the PREA Audit Notice)).

TESTING THIRD-PARTY REPORTING

Either prior to the onsite, during the site review, or post-onsite, the auditor must:

- Complete and submit a test third-party report using the same method(s) provided to

the public (e.g., via the agency/facility website).

- Confirm the method(s) to submit third-party reports is easily accessible and understandable and can be found in reasonably conspicuous and appropriate locations (e.g., facility/agency website).
- Confirm that the third-party reporting method is not the general contact information for the facility, but is specific to reporting sexual abuse and sexual harassment in the facility.
- Verify the facility has a process for receiving third-party reports.
 - Ask to see evidence of having received the test report that the auditor submitted.

PREA Audit Site Review

RECORD STORAGE

During the site review, the auditor must:

- Observe the physical storage area of any information/documentation collected and maintained in hard copy pursuant to the PREA Standards (e.g., risk screening information, medical records, sexual abuse allegations) to determine if the area is secured (e.g., key card, lock and key).
- Observe electronic safeguards of any information/documentation collected and maintained electronically pursuant to the PREA Standards (e.g., risk screening information) to determine how access to the information is secured (e.g., password protected, accessible only in certain areas, role-based security).
 - Note, the auditor may have to speak with the agency/facility information technology staff person to understand the secure storage of electronic information and who has access to that information.

Additionally, the auditor should:

- Have informal conversations with staff regarding access to secure information, including medical and mental health files, sexual abuse and sexual harassment reports, etc. (e.g., where, how, and security of information is stored electronically and in hard copy, specifically who has access and how access is restricted).

RECORD STORAGE

During the site review, the auditor must:

- Observe the physical storage area of any information/documentation collected and maintained in hard copy pursuant to the PREA Standards (e.g., risk screening information, medical records, sexual abuse allegations) to determine if the area is secured (e.g., key card, lock and key).
- Observe electronic safeguards of any information/documentation collected and maintained electronically pursuant to the PREA Standards (e.g., risk screening information) to determine how access to the information is secured (e.g., password protected, accessible only in certain areas, role-based security).
 - Note, the auditor may have to speak with the agency/facility information technology staff person to understand the secure storage of electronic information and who has access to that information.

Additionally, the auditor should:

- Have informal conversations with staff regarding access to secure information, including medical and mental health files, sexual abuse and sexual harassment reports, etc. (e.g., where, how, and security of information is stored electronically and in hard copy, specifically who has access and how access is restricted).

RECORD STORAGE

During the site review, the auditor must:

- Observe the physical storage area of any information/documentation collected and maintained in hard copy pursuant to the PREA Standards (e.g., risk screening information, medical records, sexual abuse allegations) to determine if the area is secured (e.g., key card, lock and key).
- Observe electronic safeguards of any information/documentation collected and maintained electronically pursuant to the PREA Standards (e.g., risk screening information) to determine how access to the information is secured (e.g., password protected, accessible only in certain areas, role-based security).

- Note, the auditor may have to speak with the agency/facility information technology staff person to understand the secure storage of electronic information and who has access to that information.

Additionally, the auditor should:

- Have informal conversations with staff regarding access to secure information, including medical and mental health files, sexual abuse and sexual harassment reports, etc. (e.g., where, how, and security of information is stored electronically and in hard copy, specifically who has access and how access is restricted).

115.401 (n): Inmates shall be permitted to send confidential information or correspondence to the auditor in the same manner as if they were communicating with legal counsel.

Audit**PREA Audit Site Review**

- Ensure that information about the PREA audit (e.g., Notice of Audit) is posted in all housing units. Ask inmates about the notice and how long it has been posted.

Documentation Review

- Review information provided to inmates regarding the confidential nature of any correspondence and communication with the auditor. Ensure that the information is accurate.
- Review methods provided by agency/facility for sending confidential information or correspondence to the auditor, and detail methods in the notes section or upload documentation, if applicable.

Other Audit Instructions

- Note. The agency/facility must have provided inmates with information about the PREA audit at least six weeks prior to the site visit. The information or “Notice of Audit” is generally provided to the agency/facility by the auditor, and the agency is required to post such information in all housing units. The information provided to the inmates must have included accurate information regarding the confidential nature of any correspondence and communication with the auditor. The agency/facility must have provided inmates with a method of sending confidential information or correspondence to the auditor. Such method provided the same level of confidentiality as if the inmates were communicating with legal counsel. If any of these elements were not met, answer “No”.

DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows residents to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.

<p>17. Does the facility ever hold youthful inmates or youthful/juvenile detainees?</p>	<p><input type="radio"/> Yes</p> <p><input type="radio"/> No</p> <p><input type="radio"/> Not Applicable for the facility type audited (i.e., Community Confinement Facility or Juvenile Facility)</p>

<p>Targeted Inmate/Resident/Detainee Interviews</p>	
<p>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</p>	

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

<p>59. Enter the total number of interviews conducted with youthful inmates or youthful/juvenile detainees using the "Youthful Inmates" protocol:</p>	
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/detainees in this category:</p>	<p><input type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/detainees.</p> <p><input type="checkbox"/> The inmates/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/detainees).</p>	
<p>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input type="radio"/> Yes <input type="radio"/> No
--	---

a. Explain what areas of the facility you were unable to access and why:	
---	--

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input type="radio"/> Yes <input type="radio"/> No
---	---

a. Explain which facility practices you were unable to observe per the site review component of the audit instrument and why:	
--	--

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input type="radio"/> Yes <input type="radio"/> No
--	---

<p>a. Explain which critical functions you were unable to test per the site review component of the audit instrument and why:</p>	
<p>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<p><input type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	
<p>Documentation Sampling</p>	
<p>Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.</p>	
<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse				
Staff-on-inmate sexual abuse				
Total				

You indicated that you are unable to provide information for one or more of the fields above. Explain why this information could not be provided.

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment				
Staff-on-inmate sexual harassment				
Total				

You indicated that you are unable to provide information for one or more of the fields above. Explain why this information could not be provided.

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse					
Staff-on-inmate sexual abuse					
Total					

You indicated that you are unable to provide information for one or more of the fields above. Explain why this information could not be provided.

95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual abuse				
Staff-on-inmate sexual abuse				
Total				

You indicated that you are unable to provide information for one or more of the fields above. Explain why this information could not be provided.

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual harassment					
Staff-on-inmate sexual harassment					
Total					

You indicated that you are unable to provide information for one or more of the fields above. Explain why this information could not be provided.

97. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
